

Keypad Fingerprint Access Control User Manual

Please read the manual carefully before use this unit

1.Introduction

This series' product is a new generation of multi-function standalone access control. It adopts new ARM core 32-bit microprocessor design, which is powerful, stable and reliable. It contains reader mode and standalone access control mode etc.. It's widely applied to different occasions, such as office, residential communities, villa, bank and prison etc..

2.Features

Feature	Specification
Card Type	Read 125KHz EM Card and HID Card (Optional)
	Read 13.56MHz Mifare card and CPU card (Optional)
Keypad Characteristic	backlight keypad
Output Way	Contain reader mode, the transmission format could be adjusted by user
Access Way	Support seven access ways
Admin Card	Support admin add card and admin delete card
User Capacity	Non Video intercom product:10,000 card / pin users and 200 fingerprint users
	Video intercom product : 1000 card / pin users and 200 fingerprint users

3.Technical Specifications

Operating Voltage: DC 12-24V	Standby Current: ≤60mA
Operating Current: ≤100mA	Operating Temperature: -40°C~60°C
Operating Humidity: 0%~95%	Access ways: Fingerprint, card, code, mobile App or multiple combination methods

4.Installation

- Remove the back cover from the keypad using the supplied special screw driver
- Drill 2 holes on the wall for the self-tapping screws and 1 hole for the cable
- Put the supplied rubber bungs to into the two holes
- Fix the back cover firmly on the wall with 2 self tapping screws
- Thread the cable through the cable hole
- Attach the keypad to the back cover. (See the figure below)

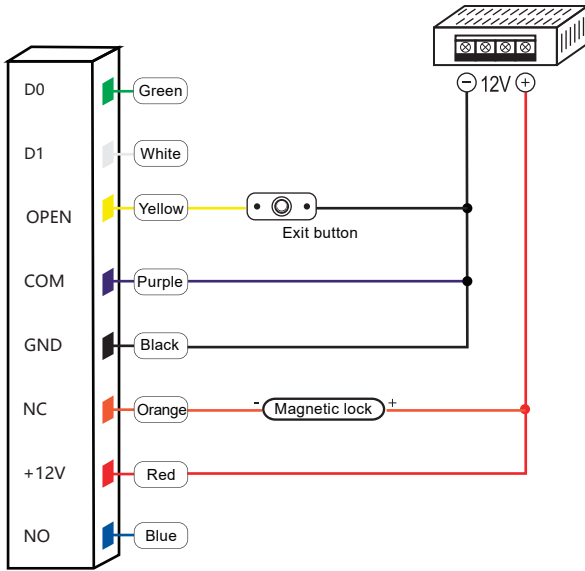

5.Wiring

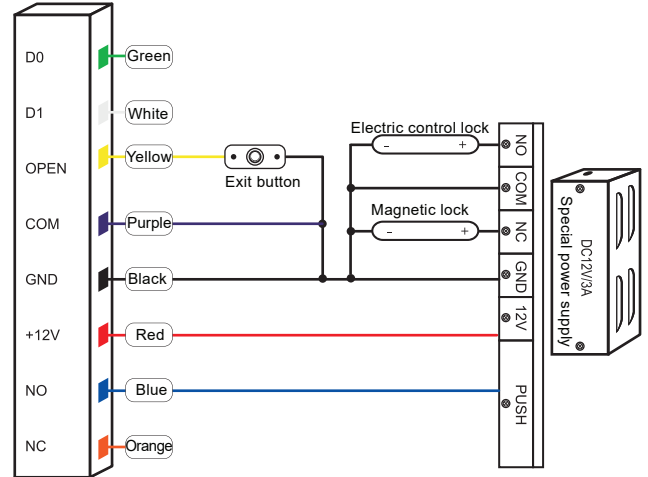

No.	Color	Marks	Description
1	Green	D0	Wiegand input (Wiegand output as reader mode)
2	White	D1	Wiegand input (Wiegand output as reader mode)
3	Yellow	OPEN (BEEP)	Exit button input end (Beeper input as reader mode)
4	Red	+12V	Positive power supply or AC power supply end
5	Black	GND	Negative power supply
6	Blue	NO	Relay NO end
7	Purple	COM	Relay COM end
8	Orange	NC	Relay NC end

7.Sound and Light Indication

Operation Status	Light indicator	Buzzer
Stand by	Red	
Operation successful	Green	Beep—
Operation failed		Beep-Beep-Beep
Admin card enter programming		Beep-Beep
Admin card exit programming		Beep—
Press digital key		Beep
Press * key		Beep—
Press access code	Red indicator flash slowly	
Read card under card plus code mode	Red indicator flash slowly	
Read multi user cards	Red indicator flash slowly	
Enter programming mode	Red indicator flash slowly	
Enter setting status	Orange	
Unlocking	Green	
Buzzer alarm	Red indicator flash quickly	Alarm

8.Admin Menu

8.1 Standalone Mode Settings

Device Management

Enter programming	Menu	Operation steps	Description	Default value	
Press * Admin code # (Default admin code is "999999")	00	New admin code # new admin code #	Change admin code	999999	
	01	Read card / Input a fingerprint twice *	Set admin add card or admin add fingerprint		
	02	Read card / Input a fingerprint twice *	Set admin delete card or admin delete fingerprint		
	03	0#		Reader mode (Press * until heard di-sound and LED flashing to exit reader mode)	1
		1#		Standalone access control mode	
		2#		Relay toggle mode	
	08		WIFI matching	Optional	
	09		Unlocking code # (4-6 digits)	Public code	

Add and Delete Users

Enter programming	Menu	Operation steps	Description	Default value		
Press * Admin code # (Default admin code is "999999")	11	Read card / Input a fingerprint twice...*	Add card users or fingerprint users continuously	"...*" means repeating the previous operation, Press * key to exit.		
		Press 8 or 10 digits card number # ... *	Add card users by card number			
		Press ID number # read card / Input a fingerprint twice ... *	Add card users or fingerprint users by specific ID number			
		Press ID number # press 8 or 10 digits card number # ... *	Add card users by specific ID number and card number			
		Press ID number # press code # ... *	Add an independent user code by specific ID number			
	12	Read user card, input the first fingerprint twice, input the second fingerprint twice...*	Match fingerprints to a card (Maximum 2 fingerprints)			
		Press ID number # press 8 or 10 digits card number # input card quantity #	Add conductive number card			
	Delete users					
	21	Read card / Input a fingerprint once ... *	Delete card users by reading card / Delete fingerprint users by inputting fingerprint		"...*" means repeating the previous operation, Press * key to exit.	
		Press 8 or 10 digits card number #... *	Delete card users by card number			
Press ID number # ... *		Delete users by ID number				
20	0000#	Delete all users				

Access Ways

Enter programming	Menu	Operation steps	Description	Default value
Press * Admin code # (Default admin code is "999999")	31	0 #	Forbidden opening door	4
		1 #	Entry by code only	
		2 #	Entry by card only	
		3 #	Entry by card+ code or fingerprint + code	
		4 #	Entry by card, fingerprint or code	
		5 #	Entry by fingerprint only	
		6 #	Entry by fingerprint + card	
	7 #	Entry by multi-fingerprint / multi-card		
	32	1 #	Set door open by 1 user card/user fingerprint	1
		2-10 #	Set door open by 2-10 user cards/user fingerprints	

Advanced Settings

Enter programming	Menu	Operation steps	Description	Default value
Press * Admin code # (Default admin code is "999999")	41	(0-300) #	Door opening time range: 0-300S 0 equals to 50mS	5
	42	0 #	Alarming time sets 0S, means no alarm	0
		(1-99) #	Alarming time range: 1-99 min	
	61	0#	Normal working mode	0
		1#	The external alarm and built-in buzzer will work if wrong operations are over 5 times.	
		2#	The device will be locked out for 10 min if wrong operations are over 5 times.	
	62	0#	Disable light indicator	1
		1#	Enable light indicator	
	63	0#	Disable the keypad backlight	1
		1#	Enable the keypad backlight	
	64	(2-99) #	Time of keypad backlight: 2-99 sec	1
		0#	Disable buzzer	
		1#	Enable buzzer	

8.2 Reader Mode Settings

Enter programming	Menu	Operation steps	Description	Default value
Press * Admin code # (Default admin code is "999999")	00	New admin code # new admin code #	Change admin code	999999
	01	Read card / Input a fingerprint twice *	Set admin add card or admin add fingerprint	
	02	Read card / Input a fingerprint twice *	Set admin delete card or admin delete fingerprint	
	03	0#	Reader mode	1
		1#	Standalone access control mode	
		2#	Relay toggle mode	
11	Input a fingerprint twice, ... *	Add fingerprint users continuously	"... " means repeating the previous operation, Press * key to exit.	
	Press ID number # Input a fingerprint twice ... *	Add fingerprint users by specific ID number		
Press * Admin code # (Default admin code is "999999")	21	Input a fingerprint once ... * Input the 2 nd fingerprint ... *	Delete fingerprint users continuously	0
		Press ID number # ... *	Delete users by the specific ID number	
	20	0000#	Delete ALL users	
	42	0#	Alarming time sets 0S, means no alarm	
		(1-99)#	Alarming time range: 1-99 min	
	51	(0-255)#	Set device number	
	52	(26-58)#	Wiegand output: 26-58 bits	
53	0#	Keypad transmission format 4 bits	0	
	1#	Keypad transmission format 8 bits		
	2#	Virtual card number output		

9.Admin Card Operation

9.1 Add Card

Read admin add card Read the 1st user card Read the 2nd user card ... Read admin add card

Note: The add card is used to add card users continuously and quickly. When you read the admin add card at the first time, you will hear short "BEEP" sounds twice and the indicator light turns orange, it means you have entered into add user programming, when you read the admin add card at the second time, you will hear long "BEEP" sound once and the indicator light turns red, it means you have exited the add user programming.

9.2 Delete Card

Read admin delete card Read the 1st user card Read the 2nd user card ... Read admin delete card

Note: The delete card is used to delete card users continuously and quickly. When you read the admin delete card at the first time, you will hear short "BEEP" sounds twice and the indicator light turns orange, it means you have entered into delete user programming, when you read the admin delete card at the second time, you will hear long "BEEP" sound once, the indicator light turns red, it means you have exited the delete user programming.

10.User Operation

10.1 Change the User Code

Change the user code by card

Press * Read card Old code # New code # New code #

Note: The default code "1234" of matching card can't open the door unless revising other codes.

Change the user code by fingerprint

Press * Input fingerprint Old code # New code # New code #

Note: The default code "1234" of matching fingerprint can't open the door unless revising other codes.

Change the user code by ID number

Press * ID number # Old code # New code # New code #

Note: ID number has to be known from admin before changing the code, user code can't be default code "1234".

11 Other Operation

11.1 Remove Alarm

Read admin card or Read user card or Press admin code #

Note: When the alarm is activated, users can remove the alarm by reading a valid card or pressing admin code.

11.2 Reset to Factory Default

Users can reset to the factory default when the admin code is forgotten, or the default settings have been modified, operation as below:

Method 1: Power off, power on, when the indicator light turn orange,press the # key, hearing tick-tick-tick sound thrice, the admin code has been reset to 999999, factory default settings is successful.

Method 2: Power off,press the exit button continuously, power on,meanwhile,the indicator light turns orange and sound "tick-tick" twice,then release hand & sound"tick-." once, the admin code has been reset to 999999, factory default settings is successful.

Note: Registered user data won't be deleted when reset to factory default.
